- PS&T Committee asked what those incremental changes were; Gallagher said he didn't have them now but would **send a copy** of the plans to the GTLNC address, and the office could distribute it to committee members. (not received by GTLNC Office as of 12/29/2008).

11/3/08 No Update 12/01/08 No Update 01/05/2009 No Update **02/02/2009 No Action**

03/02/2009 Victor Yang reported that DOT has found justification for a Smart Crosswalk based on the number of pedestrians using current crosswalk and other criteria including the proposed 40 mile speed on Riverside Drive. The plan is to be presented to DOT management on 3/5/09. If approved, as a smart crosswalk the intersection would qualify for a Traffic signal and would be placed on a waiting list with other approved intersections awaiting funding.

3.3 Proposed Speed Limits (40 MPH) on Riverside between Clybourn and Van Nuys Boulevard

12/01/2008

- Gallagher reported that the speed zone has been 35 but the limits expired, so they need another study by Valley traffic. One study showed average speed of 45, another of 40.
- He said that generally, the speed zone is determined by how fast the traffic is going, so if the study shows the average speed on Riverside is 45; city will re-set the zone to 45!!! If it's 40 that allows for radar enforcement.
- timing the traffic lights at one speed, or not timing them, does not seem to affect the speed the vehicles travel.

01/05/2009 Update

Motion that GTLNC request that speed limit on Riverside Drive Clybourn and Sancola remain at 35 MPH and NOT be raised to 40 MPH.

ACTION:

02/02/2009 Reviewed by Brian Gallagher subsequent to meeting at CD-4 with City Staff, Toluca Lake Homeowners Association Representative, Chamber of Commerce and Jay Goldberg by cell phone.
