Greater Toluca Lake Neighborhood Council

Resolution

Filed with the Offices of Mayor Karen Bass;
Councilmember Adrin Nazarian, Council District 2;
Los Angeles Department of Transportation;
Planning and Land Use Management Committee, Los Angeles City Council; and
Los Angeles City Planning Department

Passed at GTLNC Regular Board Meeting on Tuesday, January 21st, 2025

The Greater Toluca Lake Neighborhood Council opposes the Los Angeles Department of Transportation's proposed Forest Lawn Drive Active Transportation & Traffic Safety Project, as it would materially reduce the four motor vehicle lanes on Forest Lawn Drive between Memorial Drive and Zoo Drive, unnecessarily create congestion and drive time delays, and disproportionately prioritize a relatively small group of users at the expense of a majority of others.

We believe alternatives exist that would better serve the safety of cyclists and motorists combined. We also believe that Forest Lane Drive is fulfilling the purpose for which it was correctly designed and that, as proposed, the plan does not serve the interest of Greater Toluca Lake stakeholders.
